[Andy's Echo produces and performs electronic music with live guitar, vocals and synths.](#)

The Hamburg-based multi-instrumentalist, singer and live act cultivates a unique sound that combines high energy electronic beats, meshing guitar licks, classic songwriting and trippy sound design. This amounts to genre-bending and exceptionally danceable music, ranging from technoid to melancholic with a psychedelic feel. Andy's Echo already played shows at [Fusion Festival](#), AfrikaBurn, Sisyphos, Übel & Gefährlich, Ritter Butzke, Dockville Festival, 3000° Festival, Reeperbahn Festival, Hive Club, extensively toured South Africa and played all over Germany.

Andy's Echo started releasing music in 2020 and signed EPs on labels like **3000° Records**, **Stil vor Talent**, **Katermukke**, **Colorize** - including remixes from **Dirty Doering** and **Mollono.Bass**. Recently, **Pete Tong** played Andy's music in his Hot Mix on **BBC Radio 1**.
